eOn Communications Extends the eOn Office Solutions Syspine IP-PBX "All-in-One" Package Promotion

eOn Communications is pleased to announce that it will extend the promotion for the Syspine® IP-PBX "All-in-One" 6-pack telephone system packages until July 31, 2009. The Syspine® IP-PBX is an easy-to-use, low-cost system that addresses the vast majority of single-client small businesses. Here are a few things you need to know about the Syspine® IP-PBX:

- **SMB Market:** Scalable up to 50 IP phones - targets the "20 and under" station sale as sweet spot.
- **Brand Name:** Open doors with Microsoft Response Point brand.
- **Line Connections:** 4 or 8 PSTN lines - can grow to 8 by adding card, ITSP/SIP trunk standard and ready, gateway available for T1/PRI.
- **NO ADDITIONAL LICENSING:** All standard applications, no software upgrade charges.
- **Speech Recognition:** No need for lots of phone buttons/issues - just say Call, Transfer, Park, Retrieve, Page
- **Built-in Voicemail:** 16+ hours, no hard drive, speech recognition for routing by spoken name or departments.
- **PC / Phone Integration Standard:** PC Assistant to import contacts, click to dial, screen pops, feature access, speed dial and more!
- **Easy Administration / Programming / MAC:** The easiest system on the market to sell, install, program, and service. You can have the system up and running in 20 minutes!

Syspine® IP-PBX capabilities:

- Deployable in PSTN, VoIP or hybrid environment
- Set-up wizards for ease of configuration
- Standard Automatic Speech Recognition with Text-to-Speech conversion (English version)
- Voice activated auto receptionist
- Voicemail to e-mail forwarding
- Call forward calls to external phone numbers
- Microsoft Office Outlook Contact integration
- Incoming call notification via PC Assistant
- Click to call by selecting a phone number on your computer screen
- Desktop, upright or wall mount installation
- Two-click backup and restore
- Optional ATA device for analog appliances (future)
- Line in port for connecting to music source and line out port for connecting to PA system

IP Phone 310 capabilities:

- Microsoft Response Point command button for voice activated features
- Power over Ethernet (PoE) support
- Automatic Set Relocation
- 3-way Conference
- External and internal calling party name and number
- Call hold, transfer and redial
- Full duplex speakerphone with microphone & handset mute
- Incoming call, voice mail and audible call waiting indicator
- Call history - missed, received and dialed numbers
- PC activated features including:
 - Do Not Disturb
 - Headset Mode
 - Personal Ring Tone
 - Speed Dial
 - Phone Lock
